## Still Summertime

As the end of summer nears, many may look forward to one more long weekend away at the beach or camping with their families. Stores are bustling as children pre-

pare to return to school or college.

The hours of daylight slowly decline and become a little cooler as a few leaves fall even

though they do not yet show the autumn colors.

It was a nice summer, even though we had our share of rain, and we now await Fall.

## God's Cake

We all receive so many emails as well as notes from friends and family whether they are inspirational, political, pictures of pets and wild animals, faraway places, etc. Ken DeCerce sent my favorite for this week. This is about the best inspirational email I've ever read.

### God's Cake

Sometimes we wonder, "**What did I do to deserve this?**" or "**Why did God have to do this to me?**"

Here is a wonderful explanation!

A daughter is telling her Mother how **everything is going wrong**, she's failing algebra, her boyfriend broke up with her and her best friend is

moving away.

Meanwhile, her Mother is baking a cake and asks her daughter if she would like a snack. The Daughter says, "Absolutely Mom, I love your cake." "Here have some cooking oil," her Mother offers. "Yuck," says her daughter.

"How about some raw eggs?" "Gross, Mom!" "Would you like some flour then? Or maybe baking soda?" "Mom, those are all yucky!"

"Yes, all those things seem bad all by themselves. But when they are put together in the right way, they make a wonderfully delicious cake!"

God works the same way.

God's Cake

Many times we wonder why He would let us go through such **bad and difficult times**. But God knows that when He puts these things all in His order, they always work for good! We just have to **trust** Him and, eventually, they will all make **something wonderful!**

## September and October Astrologically

In September, we find the Sun in Virgo until the 23rd when it enters Libra. Uranus, Neptune and Pluto are all retrograde until Pluto turns direct on the 22nd.

The Full Moon occurs on the 8th in Pisces. The Fall Equinox is on the 22nd followed by the New Moon on the 24th in Libra.

In October, the Sun is in Libra until the 23rd when it enters Scorpio. Uranus and Neptune remain retrograde and Mercury turns retrograde on the 4th.

A Lunar Eclipse and Full Moon in Aries occurs on the 8th. A Partial Solar Eclipse and New Moon in Scorpio occurs on the 23rd.

Mankind has followed the cycles of the Sun for millennia. Stone circles like this, dating back more than 3,000 years, are aligned to the Solstices and the Equinoxes.

# Understanding Your Sun Sign

Astrology holds the key to both character and destiny. It is the science of the stars in their relationship to and effect on man. It is a measuring of the cycles of life. It is also an art and a philosophy. The delineation (i.e., reading) of a chart is an art when you synthesize the meanings of the components of that chart. It is a philosophy when you study the nature of man and his relationship to the people and the world that surrounds him.

The planets are the energizing factors. Each planet gives off a different kind of energy. The *signs* show the way that energy is used. The *houses* represent the different areas or departments of life and show *where* the energies are used.

(From: "Let's Learn Astrology" by Patricia G. Crossley (1972)

Astrologers often use standard Key Words to describe the energy of each of the twelve Sun Signs:

\*\*\*\*\*

Aries (March 21 to April 20)

I AM

Taurus (April 21 to May 20)

I HAVE

Gemini (May 21 to June 20)

I THINK

Cancer (June 21 to July 22)

I FEEL

Leo (July 23 to August 22)

I WILL

Virgo (August 23 to Sept. 22)

I ANALYZE

Libra (Sept. 23 to Oct. 22)

I BALANCE

Scorpio (Oct, 23 to Nov. 21)

I DESIRE

Sagittarius (Nov. 22 to Dec. 21)

I SEE

Capricorn (Dec. 22 to January 19)

I USE

Aquarius (January 20 to Feb. 18)

I KNOW

Pisces (Feb. 19 to March 20)

I BELIEVE

Popular astrology deals with Sun Signs, and often astrologers put down any exploration of the zodiac as "Sun Sign Astrology." Astrologers are both *right and wrong* in doing this—*right* in that the complete natal chart must be drawn up for a true understanding of the individual and *wrong* in belittling the importance of the Sun.

Just as the Sun is the center of our solar system from which all life in this system has evolved, so is the Sun in our charts the center of our being and the origin of our own life force. The zodiac sign it is in is crucial in forming one's character and tells a great deal about you.

## Leo Buscaglia (1924—1998)

Felice Leonardo Buscaglia (Leo), also known as "Dr. Love," was an American author, motivational speaker and professor. He wrote over a dozen books and sold more than 11 million copies in twenty languages. The following is from "Bus 9 to Paradise" written in 1986.

"Too often our sensibilities are

assaulted and bludgeoned by all that seems bad in the world—the T.V. bulletins of the day's horrors, the full, graphic story we get by watching the eleven o'clock news.

Why do we allow ugliness to assume such an overriding importance in our lives? If we don't cast it out with determination, it

will surely blind us to all the bright reality around us. If only we could step out of our perceptual traps and see that beauty and goodness comprise at least an equal part of what there is. What a miracle would unfold in this world of negativity if we are subscribed to this one simple idea!"
